Roundit 2000 Sleeving

Product Number IP63ES

Roundit is a tough, light-weight, self-wrapping sleeving designed to allow for quick and easy application and removal. Made from a woven blend of polyester monofilaments and multifilaments in a flat weave construction gives Roundit a rugged yet smooth appearance.

This sleeving is perfect for applications where a product needs to be supplied that does not disturb the connector or fittings.

Roundit 2000 sleeving is available as a standard U/L recognized product rated for 125°C. It can also be supplied with the added feature of flame retardance, EMI woven or Nomex.

Roundit 2000 has many applications in the aeronautical, marine, electronic, furniture accessory and general manufacturing industries.

Easy to apply and remove
